Students majoring in Environmental Studies are required to select an emphasis of at least 15 credits to complement their general professional foundation. Students must file an approved emphasis plan prior to applying for graduation, but it is recommended that they meet with their advisor to develop and gain approval for the emphasis no later than midway through the first semester of their junior year. Students should be aware of courses requiring prerequisites. Descriptions in the General Catalog will provide further information.

Complete 15 credits chosen from one of the following seven emphasis areas:

- **Business and Economics**
  - APEC 5560 Natural Resource and Environmental Economics (Sp)……………………………………3
  - ECN/POLS 3170 Law and Economics (Sp)………………………………………………………………3
  - ENVS 5550 Sustainability: Concepts and Measurement (Sp)……………………………………3
  - MGT 2050 Legal and Ethical Environment of Business (F, Sp, Su)………………………………3
  - MGT 3500 Fundamentals of Marketing (F, Sp, Su)……………………………………………………3
  - Other business or economics course approved by faculty advisor ………………………………………3-4

- **Communications**
  - CMST 5250 Communication, Social Justice and the Environment……………………………………3
  - ENGL 3440 Creative Nonfiction Writing (F, Sp)…………………………………………………………3
  - ENGL 4630 American Nature Writers (F, Sp)…………………………………………………………3
  - ENVS 4600 Natural Resource Interpretation (F)…………………………………………………………3
  - ENVS 4700 Communicating Sustainability (Sp)…………………………………………………………3
  - JCOM 1130 Beginning Newswriting for the Mass Media (F, Sp)……………………………………3
  - Other communications course approved by faculty advisor …………………………………………3-4

- **Environmental Policy**
  - ENVS 4130 Recreation Policy and Planning (Sp)…………………………………………………………3
  - ENVS 5300 Natural Resources Law and Policy (Sp)……………………………………………………2
  - ENVS 5550 Sustainability: Concepts and Measurement (Sp)…………………………………………3
  - ENVS 6320 Water Law and Policy in the United States (Sp)…………………………………………3
  - ENVS/SOC 5640 (CI) Conflict Management in Natural Resources (Sp)…………………………3
  - Other policy course approved by faculty advisor ………………………………………………………3-4
Human Impacts on the Environment

- ENVS 4700 Communicating Sustainability (Sp) ................................................................. 3
- GEO 3100 (DSC) Natural Disasters (Sp) ........................................................................... 3
- HIST 3950 (DHA/CI) Environmental History (cannot be applied toward this option if already used to fulfill the requirements in the Disciplinary Foundation, Section A of the major requirement sheet) ........................................................................................................ 3
- SOC 4620 (DSS) Sociology of the Environment and Natural Resources (Sp) .................. 3
- WATS/PSC 3820 (DSC/QI) Climate and Climate Change (Sp) ........................................ 3
- WILD 4600 Conservation Biology (Sp) ................................................................................. 3
- Other appropriate course approved by faculty advisor ...................................................... 3-4

International

- ANTH 2010 (BSS) Peoples of the Contemporary World (Sp) ........................................... 3
- ECN 5400 International Trade Theory (F) ........................................................................... 3
- ENVS 5550 Sustainability: Concepts and Measurement (Sp) ........................................... 3
- GEOG 4100 Geographic Approaches to the Human-Environmental Relationship (Sp) .... 3
- GEOG 4120 (CI) Environment and Development in Latin America (F) .............................. 3
- GEOG 4220 International Regional Geography (F, Sp, Su) ............................................... 3
- Other course with international focus approved by faculty advisor ..................................... 3-4

Planning and Analysis

- BIOL 5010 Biogeography (Sp) .......................................................................................... 3
- ENVS 4130 Recreation Policy and Planning (Sp) ............................................................... 3
- ENVS/SOC 5640 (CI) Conflict Management in Natural Resources (Sp) ............................ 3
- GEO 3100 (DSC) Natural Disasters (Sp) ......................................................................... 3
- LAEP 3700 (CI) City and Regional Planning (Sp) ............................................................... 3
- WATS 4930 Advanced GIS and Spatial Analysis (Sp) ...................................................... 3
- WATS 4931 GIS Research Projects (Sp) ............................................................................ 2
- Other planning course approved by faculty advisor ......................................................... 3-4

Environmental Stewardship

Students may develop a customized emphasis of at least 15 credits that meets specific career goals not addressed in the other emphases. In consultation with your advisor, complete the specialization option describing educational goals and the specific courses to be taken. A University-approved minor may be used to meet this requirement, subject to approval by the student’s advisor and department head.
