

Level I Wetlands/Stream Scientist

Frontier Corporation USA (www.frontiercorp.net) is multidisciplinary environmental consulting firm located in Providence, Utah near Utah State University. We are seeking an experienced wetland and stream channel delineator, preferably with one full year of work experience in Utah, Nevada, Colorado and/or Idaho. Must be proficient with GPS and GIS skills and have experience using the Arid West and Mountain West Manuals and technical report writing. 404 permitting and mitigation experience preferred, but not necessary. Hourly positions \$20 to \$30/hr, depending on experience and proficiency. Full-time salaried positions available for qualified field scientists with delineation experience starting at \$50,000. Bonus incentives, retirement, health and dental benefits, paid holidays/vacation and ownership opportunities. Frontier is a small business employer with high growth and rapid advancement potential for well-qualified scientists.

Entry positions are also available. Pay scale and benefit packages depending on educational qualifications and prior work experience.
