

Internal/External	External
Position Title	Sturgeon Habitat Coordinator (Oshkosh, WI)
UW System Title and Code	Research Specialist (T16)
FTE	100%
Position Information	<u>Work Location:</u> Oshkosh DNR Service Center, Oshkosh, WI <u>Supervisor:</u> Dan Isermann, WI Cooperative Fishery Research Unit
Department	Fisheries Analysis Center, Wisconsin Cooperative Fishery Research Unit (WICFRU)
Department Description	The Fisheries Analysis Center (FAC) at the University of Wisconsin-Stevens Point is funded by the Wisconsin DNR to provide analyses of fish population dynamics and demographics as they relate to fisheries management and environmental variability. The FAC is affiliated with the Wisconsin Cooperative Fishery Research Unit (WICFRU), a collaborative effort between the College of Natural Resources (CNR) at the University of Wisconsin-Stevens Point, the U.S. Geological Survey and the Wisconsin Department of Natural Resources (WDNR). WICFRU is integrated into the Water discipline of the CNR, which includes experts in fisheries management, aquatic habitat, aquatic toxicology, limnology, entomology, watershed management, and water chemistry. The WICFRU provides research and technical support for the State of Wisconsin and also works with graduate education, mentoring and professional collaboration for the CNR.
University Description	Through the discovery and dissemination of knowledge, UW-Stevens Point stimulates intellectual growth, provides a liberal education, and prepares students for a diverse sustainable world. The university is committed to creating a safe, inclusive learning community for all faculty and staff from a variety of backgrounds. Visit www.joinuwsp.org for more information about UW-Stevens Point.
Position Summary	This full-time academic staff appointment (Sturgeon Habitat Coordinator) at UWSP will help facilitate lake sturgeon spawning habitat development and enhancement projects throughout the Winnebago System. This position will inventory existing spawning sites, while also identifying potential sites for future work. The selected candidate will be responsible for lining up all project logistics including: obtaining the necessary easements and permits, designing the project, bidding materials, and scheduling DNR habitat crews and contractors to complete projects. This position will include integrating with landowners and stakeholders to cost-share and subsequently evaluate projects. Other activities of the habitat coordinator include supporting the Winnebago Sturgeon Biologist (DNR) with sturgeon related assessments, monitoring activities, and assisting with DNR and University led research projects.
Required Qualifications	<ul style="list-style-type: none"> - Bachelor's degree in Fisheries, Ecology, Natural Resources, Biology, or related field - Knowledge with habitat development - Demonstrated ability to effectively collaborate with a broad range of stakeholders - Good communication skills
Preferred Qualifications	<ul style="list-style-type: none"> - Previous GIS training and experience - Previous experience with project design - Previous experience with material and/or project bidding - Experience with grant application processes

How To Apply	Please be sure to complete all required fields and include all required documents before submitting your application. To return to a draft application, click on the “My Activities” link at the top of the screen after logging in. Once you click on Submit Application, you will not be able to edit or attach any application materials. After submitting the application, you will receive an Application Confirmation email from the application system. Refer to the “How To Apply” document for more information.
Anticipated Appointment Date	April 2, 2018
