The Warner College of Natural Resources is seeking a Postdoctoral Fellow position.

The Provost’s Postdoctoral Fellow for the Warner College of Natural Resources (WCNR) was initiated in recognition that managing and conserving natural resources requires collaboration among diverse sets of stakeholders, including individuals from underrepresented groups and cultures. The purpose of this program is to help train individuals to meet the unique challenges of managing and conserving these valuable resources. The Provost Postdoctoral Fellow, WCNR will be supported to conduct research aligned with their interests (50%) and will teach two classes per year that align with their interests (40%). In addition to the annual salary provided for this position, the successful applicant will receive a start-up package to develop their research and enhance their training to become a leader in collaborating and training students to work across a diverse set of stakeholders.

The position will be housed in one of the five academic departments in Warner College, with final departmental assignment based on disciplinary interests, background of the candidate. The Departments within WCNR are Ecosystem Science and Sustainability; Fish, Wildlife, and Conservation Biology; Forest and Rangeland Stewardship; Geosciences; and Human Dimensions of Natural Resources.
