

# Vacancy Announcement

## USDA Forest Service - Pacific Northwest Research Station Resource Monitoring & Assessment Program

### Forest Inventory and Analysis (FIA) Forestry Technicians – Crew Members -- GS-0462-05/06 Lead Forestry Technicians – Crew Leaders -- GS-0462-07

#### General information:

The Resource Monitoring and Assessment Program is advertising to fill several Forestry Technician, GS-0462-05/06, and several Lead Forestry Technician, GS-0462-07 positions. These are temporary (1039 hour) seasonal positions with the PNW Forest Inventory and Analysis (FIA) Work Unit, one of four FIA Units across the country that comprise the national Forest Inventory and Analysis (FIA) program.

Several positions will be filled on the Alaska FIA Data Collection team with a duty station of Anchorage, AK. Many positions on the PNW FIA Data Collection team will also be filled at any of the 15 satellite duty locations in Oregon, Washington, and California. Exact duty locations will be listed in the job announcement. You must select which duty locations you are interested in being considered for. The expected start dates for these positions range between March – May of 2019.
