

The Geospatial Consortium is an organizational hub for all geospatial activities and opportunities on the campus of Utah State University. The successful candidate will promote USU geospatial activities, classes, research opportunities on a web platform, coordinate the undergraduate GIS certificate program, and teach online courses.

If you have a passion for geospatial analysis and are endowed with self-motivation and organizational skills, or if you know someone who is, please see our [full job description](#) and consider a move to beautiful Logan, Utah.

- The Department of Environment and Society (<https://qcnr.usu.edu/envs>) is one of three departments in the S.J. and Jessie E. Quinney College of Natural Resources (<https://qcnr.usu.edu/>).
- USU is dedicated to recruiting stellar candidates from a diverse pool including women, minorities, veterans, and persons with disabilities.
- The position includes outstanding medical, retirement, and professional benefits (<http://www.usu.edu/hr>).

Logan is located 85 miles north of Salt Lake City, in a community of approximately 100,000 people. The main campus is situated in beautiful Cache Valley, a semi-rural, mountain basin offering nearby ski resorts, lakes, rivers, and mountains, making it one of the finest outdoor recreation environments in the nation. The area offers ample opportunities for a family-friendly professional life. For a video introduction to Logan, Cache Valley, and USU see <http://www.cachechamber.com>.
