Summary: This course will concentrate on evolutionary aspects of behavior, predator-prey dynamics, behavioral ecology and sociobiology.

Grading: Grades will be based on quizzes, three tests, and writing assignments.

Students will be evaluated by the following criteria:

70% — There will be three exams. Test 1 and 2 each account for 20% of grade; test 3 accounts for 30%.

30% — Quizzes and writing assignments.

Class Rules:

1) Class attendance is mandatory.

2) Your work must be totally your own. Cheating will result in failing this class.

3) Quizzes on the reading assignments will occur at the beginning of class on the day the reading assignments are due. Quizzes cannot be made up regardless of the reason you are not in class.
4) Students will be called upon to answer questions from a chapter anytime after the chapter reading assignment is due.

5) Other than participation in class, there is no way to earn bonus points.
