# JOB ANNOUNCEMENT

## Fisheries Technician

PWSAC presents a unique opportunity to gain hands-on experience to help develop a fisheries career in salmon aquaculture at a remote salmon hatchery in Alaska.

The ideal candidate will unite with PWSAC's mission of sustainable salmon fisheries contributing to the culture and economy of the region. This person must be resourceful, demonstrate a strong work ethic, and produce high quality work.

Fish Technicians function as part of the hatchery operations team in the cultivating and rearing of Pacific Salmon. Will work under direct supervision of senior staff. Performs routine entry-level and up to semi-skilled level work in various phases of hatchery operations.
