

April 21, 2022

Dear Dr. Mock:

The Department of Rangeland, Wildlife and Fisheries Management at Texas A&M University is actively recruiting for an Assistant/Associate Professor and Extension Specialist in Rangeland Habitat Management. We are seeking a faculty member who can contribute to the Department and the Texas A&M AgriLife Extension Service culture of inclusivity and become a top performer in the profession. Women and under-represented minority candidates are strongly encouraged to apply for this position.

This is a non-tenure track position that will be headquartered at our Research and Extension Center in Corpus Christi, Texas. The following link will take you to the position announcement:

https://tamus.wd1.myworkdayjobs.com/en-US/AgriLife_Extension_External/details/Assistant-Associate-Professor---Extension-Specialist_R-043888

As a newly established Department with 27 faculty, nine of which are Extension Specialists, we are making a concerted effort to develop a faculty community that reflects the diversity of our constituents across Texas. We have 450 undergraduate students and 76 graduate students, with strong growth prospects for the future.

Would you please circulate this announcement among your PhD graduate students and faculty? Alternately, do you have suggestions for reaching out to potential candidates? I would be happy to follow up and discuss this further if you have questions or suggestions.

Thank you in advance for assisting us to build what we hope to be one of the top departments in the country. I look forward to seeing some of your students in our pool of applicants.

Parr Rosson
Associate Head for Extension
