

## **Utah State Floodplain Program Intern Position**

**State Floodplain Program Intern needed ASAP.** You would be working for the State Floodplain Manager in the Utah Division of Emergency Management. The Division of Emergency Management is a division with the Utah Department of Public Safety. Because it is within Utah DPS a background check will be conducted prior to hire. This is a 20-30 hour a week position. Preferably 30 hours a week. This is a paid internship (\$13-14 per hour). This is a position that would be good for a sophomore or junior that would like to spend the next year or two in the position. You would be assisting in duties related to the State Floodplain Program. Including state needs with the FEMA NFIP (National Flood Insurance Program) duties.

Some program duties:

The federal National Flood Insurance Program (NFIP) Community Assistance Program – State Support Services Element (CAP) is administered by the Division of Emergency Management from an annual grant awarded by FEMA for an annual work plan. The CAP program is intended to provide technical assistance to NFIP communities as well as to monitor, evaluate and require corrective actions by local communities in order to maintain NFIP community eligibility. The goals of the NFIP CAP program are to provide education and outreach about flood-prone areas, floodplain insurance, construction standards, , NFIP disaster assistance, and administering local floodplain management regulations.

The Floodplain Community Assistance Program is to provide training and outreach to local community floodplain administrators, private engineers, realtors, developers and others on the state and federal aspects of floodplain management and floodplain mapping. The program provides oversight and advice to local communities to assure the minimum NFIP and State minimum floodplain hazard management regulations are met. The program provides technical assistance and education to local government floodplain administrators and planning staff, consulting engineers, realtors, developers and others.
