

The U.S. Forest Service, Pacific Northwest Research Station (PNW), Resource Monitoring & Assessment Program, is advertising to fill several Forestry Technician, GS-0462-05/06 positions. These are temporary (1039 hour) seasonal positions with the PNW Forest Inventory and Analysis (FIA) Work Unit, one of four FIA Units across the country that comprise the national Forest Inventory and Analysis (FIA) program. Several positions will be filled on the Alaska FIA Data Collection team with a duty station of Anchorage, AK. Many positions on the PNW FIA Data Collection team will also be filled at any of the 15 satellite duty locations in California, Oregon and Washington. Exact duty locations will be listed in the job announcement. You must select which duty locations you are interested in being considered for. The expected start dates for these positions range between March – May of 2021. For those interested, please apply via [USAJobs](#) prior to the closing date. For your application, you may use a resume or any other written format you choose. Regardless of the format used, your application must contain sufficient information to validate qualifications and specialized experience required for this position. The specialized experience can be found in the “Qualifications” section of the vacancy announcement. All supporting documentation (including transcripts if using education as an element of basic qualification) must be uploaded as part of the application packet. The Required documents section in the job announcement will list any required documents. If you have technical questions related to completing the application, please contact ASC-HRM at 877-372-7248 (option 2). For questions related to position roles and responsibilities in California, Oregon, and Washington, you can contact Dan Durfee at sm.fs.pnw_fia_jobs@usda.gov. For questions related to position roles and responsibilities in Alaska you can contact Sarah Ellison at sm.fs.AFSLOutreach@usda.gov or 907-227-3963.
